

FEBRUARY 27, 2021

MISSISSIPPI SOCIETY OF ANNUAL MEETING

Due to the impact of COVID-19, the 2021 Mississippi Society of Anesthesiologists Meeting will be held virtually via Zoom.

We are working hard to develop a program that will provide the attendees, presenters, and sponsors with the same level of involvement and information as we have had in the past at our in-person meetings. In developing this event, we have decided to hold a 1-day virtual meeting with many of the same components as the in-person meeting. Each scheduled speaker will make their presentation live and it will be streamed to all participants registered for the conference.

While we would all love to attend this meeting in person, we have developed an alternative that will allow you to participate and learn important new information in the field of Anesthesiology in a safe and effective manner.

National Update
Beverly K. Philip, MD,
FACA, FASA
ASA President

Update/What's New in
Regional Anesthesia
Sandra Kopp, M.D.
Professor
Mayo Clinic

Update/What's New in
